6:30pm Presentation: Introducing The Gia Wellness Vision. BRING GUESTS!

Marriott Courtyard, 3105 Woodbridge Ave, Edison 08837

Discover GIA, The Single File Alignment Company. A Powerful Business Opportunity!

ABOUT GIA WELLNESS...

Eight years ago, Gia Wellness revolutionized the wellness industry by developing the world's first patented product solutions to counteract the toxic effects of electromagnetic radiation from exposure to cell phones, wi-fi and wireless devices. The company's recent breakthrough is even more remarkable... a patented water activation system that accelerates hydration (and nutrition) into the body 3 times faster than ever before!

Now, Gia is referred to as "The Single File Alignment Company" and its applied technology for energy, joint or sleep issues and skin care, has received major accolades from health, wellness and anti-aging experts around the world. Gia also has a complete line of nutritional products that are specially charged to maintain their *life force*. GIA Wellness is a thriving, privately held "inspired networking" company based in Carlsbad, California.

Our mission is to share information so people can discover *for themselves* how GIA can add value and make a difference in their lives.

GIA offers a unique business opportunity with cutting-edge products that everyone needs, in the center of four emerging trillion dollar markets, with low start-up costs, no inventory and an opportunity to earn profits right away.
