Featuring **Lynda Cormier & Alfred Hanser** Co-Founders

ABOUT GIA WELLNESS...

Eight years ago, GIA Wellness revolutionized the wellness industry by developing the world's first patented product solutions to counteract the toxic effects of electromagnetic radiation from exposure to cell phones, wi-fi and wireless devices. The company's recent breakthrough, a patented water activation system, plus its applied technology for energy, joint or sleep issues and skin care, has received major accolades from health, wellness and anti-aging experts around the world. GIA also has a complete line of nutritional products that are specially charged to maintain their *life force*. GIA is a thriving, privately held "inspired networking" company based in Carlsbad, California.

Our mission is to empower people to enjoy today's technological conveniences *worry free...* and to discover for themselves how GIA can make a difference in their lives.

GIA offers a unique business opportunity with cutting edge products that everyone needs, in the center of four emerging trillion dollar markets, with low start-up costs, no inventory and an opportunity to earn profits right away.
